1.4.2 - How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

The feedback system is considered an important tool for counter-checking of the performance indices of departments in every aspect. Although in a semi-structured way, various Departments collect feedback on curriculum aspects and courses from different stakeholders such as the students, alumni, faculty, and employers in order to ensure and analyze academic excellence. A periodical analysis is made by Department/Academic Council for student performance, faculty performance in every semester, utilization of infrastructure, and requirements for quality enrichment. Students feedback are obtained during classes, personal meeting. Feedback from teachers is obtained through brainstorming sessions on curriculum aspects and other departmental issues during regular meetings. Employers Feedback is obtained via personal meetings. Parents Feedback is obtained during their visit to the department. Alumni Feedback obtained during annual meetings of Alumni Association, and their informal visits to the departments, in which feedback from industrial management, R D establishments, and professionals is received. All feedbacks are being discussed in departmental meetings for necessary implementation. The feedback process involves a dedicated and comprehensive meeting of teachers, alumni, and student representatives in which it is thoroughly discussed that what are areas in which attention needs to be paid, what are the areas in which the department has excelled. This discussion has proceeded in the individual perceptive context of the Teachers, Alumni, and Student representatives. Then the inculcation is done on the outcomes of the feedback and a future plan is made for the eradication of problems that originated. Feedback from the alumni is focused upon the need for extracurricular programs which are beneficial for post-graduate job opportunities. The feedback of students is majorly focused upon the better understanding of subjects, interaction with faculties. The feedback of teachers is focused upon the involvement of students in studies and co-curricular and special focus group students who are not able to cope up with the learning pace of other students. University obtains formal feedback from the Departments through course contents, teaching pedagogy faculty preparedness, continuous evaluation of students through results, and the students' feedback for the teaching faculty to the authority about teaching and behavior of the faculty

member. Occasionally informal or white paper feedback is collected without identity disclosure, to improve academics and create a congenial atmosphere for both teachers and students. The doors are liberally open for the parents to approach and share their feedback, which is discussed among the teaching faculty and in the Academic/ Administrative meetings. Efforts are being made to maintain transparency, and help significantly in the overall development of university to improve academics, infrastructure, and governance.

2.3.2 - Students mentoring system available in the institution? Give details. (maximum 500 words)

The Institute was established to impart higher education mainly for students possessing rural backgrounds with very minute knowledge of professional courses and knowledge about the streams to choose according to their respective interests. The students are mentored by the faculty in

helping them to overcome their weaknesses and recognize their strengths. All teachers work as Mentors to the students allotted to them and maintain regular interaction with students. Students are free to express their opinion and seek guidance and counseling from subject teachers, course coordinators, and Head. Departments offer a highly efficient Mentoring system, in which mentors guide the students for their studies and extra-curricular activities. They also provide advice relating to the selection of major, career guidance, and personal counseling. The mentors also guide the students for their research projects. The mentoring system ensures that the students adapt to the dynamic learning environment and lead their ways into highly successful careers. The parents / Guardians of poor Attendee/performance students are called to meet the mentor and corrective and preventive measures are implemented for further improvement. For the purpose of mentoring, some departments have created a student mentoring cell to help students with their day-to-day academic problems and career guidance. The cell is constituted of both teachers and senior students. Mentors frequently interact with the students and discuss on some general issues: Academic performance monitoring of students attendance and discipline to improve the relationship to students with fellow students and teachers regular career and personal counseling Lyseining with concern subject faculty members Need-based extra classes Forthcoming Opportunities Progression - Entrepreneurship / Placements Awareness and support to students for GATE, GRE, CAT, ISRO, SAIL etc. Hostel Issues Mess Issues Personal / Domestic Problems Anti-Ragging Measures The initial emphasis is towards giving the students a proper knowledge of language literature and computers so that they could cope up with the present scenario of modern techniques and e-learning. Students are also mentored for communication skills development activities like seminars, which create an ability to build their lateral thinking to stand up and speak in public with confidence. Along with the above mention thinks under student monitoring a regular mode of conversation is established with the parents and guardian of students so that an informal progress report is maintained among the parents. The mentors are in regular touch with their assigned students by mobile phone and electronic media. A peculiar eye is always on students so that his area of interest could be nurtured. By this system of monitoring, we want to achieve better academic performance of students along with sculpting them as good members of society.

University is committed to providing state-of-the-art infrastructure based on the requirement of its stakeholders for the holistic development of its students. We ensure optimal allocation and utilization of the available financial resources for maintenance and upkeep of different facilities by holding regular meetings of various committees constituted for this purpose and using the allocated fund. Routine maintenance of playfields, lecture theatres, seminar halls, and other buildings is carried out by the University Building Cell. The annual budget is sanctioned by the University for the maintenance of laboratories and purchase of raw materials. Annual maintenance, repair, physical verification, and up-gradation of laboratory equipment are carried out during the summer vacations. Regular maintenance of classrooms and laboratories is done by the university staff. USIC (University Science Instrumentation center) is established in science faculty, for maintenance of sophisticated equipments. Most of the departments have their own Central Instrumentation Facilities (CIFs), for optimal use of equipments purchased in various schemes. Logbooks are maintained for proper record of the use of equipments in different departmental labs, and AMC (Annual Maintenance Contracts) are made for sophisticated equipments. Computer center with browsing facility: maintenance at the whole university level. University Library Building is centrally located, well laid out, and is equipped with adequate books, which are accessible to all students. The Departmental Libraries have been a humble endeavor to provide a fine collection of several Books Journal for scholarly ambiance to faculty and students. Sports: The Maintenance of indoor/outdoor sports is taken care of by Sports Board/ Sports in-charge Consult Coaches.

 - Less usage of paper, promotion of the use of soft copies/online notifications
- Promoting an eco-friendly approach among students through special lectures and poster competitions, clean and green campus drives

7.2 - Best Practices

7.2.1 - Describe at least two institutional best practices

Best Practices-1:

- Objective: To adopt a village "Nandada Kalla" by the University.
- Context: To spread awareness in the village community through university participation.
- The practice: To organize camps in the village every month to spread awareness about education, social reforms, healthcare, and sustainable development viz. health camps, adult literary programs, cleanliness drive, integrated child development service, agriculture extension activities, animal husbandry related activities, financial inclusion services, water conservation, and plantation programs, etc. Also organized computer literacy in schools, skill development camps, swachh Bharat mission, and camps for senior citizens. Organization of Guest lectures from the field to share practical experience with both students and teachers.
- Evidence: As can be seen on <http://www.jnvu.co.in/iqac/> (pictures)

Best Practices-2:

- Objective: To develop and implement Information Technology (IT) infrastructure in various University operations/function/implementation of E-governance.
- Context: Information Technology (IT) enablement of the University system.
- The Practice: 1. Computerization of different departments, library, and administrative sections of University 2. Training of staff members in IT-related activities. 3. Networking of different offices of the university. 4. Campus-wide internet implementation by optical fiber cable. 5. Use of ICT facilities to reduce students' hardship in admissions, declaration of results, and provision of marks/grade/degree certificates through IUMS 6. Designing University website to cater to the needs of all stakeholders.
- Evidence: As can be seen on <https://www.jnvuiums.in/>

7.3 - Institutional Distinctiveness

7.3.1 - Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

This institute is located in the western part of the State, which is an Arid Zone by nature and for that

reason one of the thrust areas is the study of the desert ecosystem and various aspects related to it such as resource utilization pattern, medical geography, livestock conservation, wildlife conservation, desert plant biology and biodiversity conservation, and water resource management. Several faculty members have been sanctioned individual projects for research on these aspects of Thar desert, from various funding agencies, like DST/UGC/DBT/CSIR/ICAR/ICMR/DOE etc. In addition, various departments of the University are supported by UGC under special assistance programs (UGC-SAP) and under FIST (Funds for Improvement of S T Infrastructure) by the Department of Science and Technology, Government of India. Department of Botany has been recognized as one of the nine discipline-specific CENTERS FOR ADVANCED STUDIES (CAS) in India by UGC.

It was also selected for implementation of COSIST program by the UGC for raising the standard of post-graduate education and research to the international level. The major thrust area of research is focussed on desert plant biology, from conventional botany, taxonomy, ecology, stress-physiology, microbiology, plant-microbe interaction, to advanced plant molecular biology and biotechnology, including recent "Omics" sciences. It has a state-of-the-art Plant Tissue Culture Facility and Modular Plant Functional Genomics Lab, with world-class research facilities and modern plant growth facilities. The department has mainly contributed to find out novel bacterial strains for biological nitrogen fixation and their genome sequencing, conservation of endangered plants by applying plant tissue culture techniques, the discovery of novel fungi for medicinal use, and finding the novel stress-responsive genes by using modern proteomics and transcriptomics approaches, with the aim of deciphering molecular mechanism of abiotic stress tolerance in Thar desert plants. These novel candidate genes could be used further to engineer stress tolerance in sensitive crop plants. Department of Geology is working through imageries on a desiccated cum palaeochannel of a river, to find out the possibilities on better use of these palaeochannels for well being of local residents of the Thar Desert. The department is also working on Paleontology, and various fossils of extinct plants and animals were also searched by the same departments in recent times. Department of zoology is working on the physiology, ecophysiology, toxicology, ecology, animal behavior, environmental biology, cell biology, entomology and taxonomy, parasitology, primate behavior and wildlife conservation of Thar desert animals. The chemistry department is involved in application-oriented research programs, coordination chemistry, polymers and their modifications for value-added products, nano-materials, solar energy conversion technology, environmental issues related to the Thar desert. Department of Geography is currently registered as Network institute of Indian Institute of Remote Sensing Dehradun (Uttarakhand) and running various courses of Remote Sensing and GIS. Various departments are associated with all local R and D laboratories and leading premier National and International research institutes for collaborative research activities.

8.Future Plans of Actions for Next Academic Year

The University aims to produce a quality human resource of world-class standard who will excel in Education, Research and Consultancy with emphasis on Sustainable Development and to produce knowledge-rich professionals for meeting the dynamic needs of the industry and society. Its major goal is be recognized as knowledge hub of education and research creating socially responsible citizens. The Institution is

committed to strengthen and build its academic infrastructure to meet varying demand of society. The focus will be more on applied teaching. Through innovative programs the focus will be on building a stress free learning environment of practical knowledge and intellectual guidance. The syllabi will be updated and more areas/ writers/works will be introduced so that the students of this University can compete with their counterparts elsewhere. The Institution will endeavor to develop future business leaders and professionals from a cross-functional, cross-cultural perspective with the consciousness, knowledge, and practical skills to assume responsible positions in organizations, and develop them into well-rounded individual to be successful in dynamic and ever-changing world environment. The vision is to provide a better understanding of the global, national and local economic issues that will confront our society now and in the future through teaching and research. To provide curricula that promote critical thinking skills and enhance decision making abilities, which help students become productive. The University is committed to enhancement of knowledge and learning in various fields and disciplines. In order to make the Institute Research oriented, it has intended to induct new facilities viz. Smart class rooms, E-Library, E-content Recording Room, Seminar hall, Central Equipment facility room, Preparation of E-contents and digital subject material for online class, Alumni association etc. It is looking forward providing opportunity to students to acquire skills for improving employability and entrepreneurial abilities. The University will focus on establishing new collaboratios, linkages and sign MOUs with other premier institutions, and to strengthen its RD by encouraging faculty members to apply for research projects under various schemes of GOI, and to participate in wrokshops/training programs to get expertise in the contemporary area of their research.
