PROF.(DR.) SWAPNA PATAWARI **Tel: 0291-2513840**
HEAD & PROFESSOR

Library is automated using Integrated Library Management System (ILMS) and has digitisation facility

The institute's library is equipped with library management software that allows for the maintenance of book records and their distribution to students, research scholars, and faculty members. The primary goal of establishing a library in the department is to provide learners with access to high-quality content in the form of books, magazines, and journals. Contributing to a 'Knowledge Society' through the pursuit of excellence in education, learning, and research.

Its mission is to provide seamless access to a diverse range of high-quality information resources for its stakeholders.

The institute is prepared and actively engaged in implementing best practices and providing exceptional service by providing time-bound and high-quality information services to support the institute's academic and research intelligence.

To implement the 'Five Laws' of library and information science in order to ensure effective use of information resources and services that contribute to stakeholder satisfaction.

Objectives

➢ To develop and maintain positive relationships with stakeholders in order to facilitate the development and delivery of high-quality information services.

➢ To identify, select, collect, process, organize, preserve, manage, deliver, and provide access to information resources in print, non-print, and digital media that support teaching, learning, and research.

➢ To promote the development of high-quality collections and to provide its clients with a variety of proactive and need-based information services.

The access to open access journal contents, National Digital Library of India, Emerald Journals, and other online resources are available in the library. It empowers the students and faculty members to access the world class content. It also facilitates the learner for accessing the open-source free to read and download content.

The library is opens at morning 9 a.m. and remain open during academic hours of the department. During vacation, Sundays, the library remain closed. During working hours, facilities available include borrowing/returning/ renewal of books, reprographic services, press clippings, reference services, UGC Info net Online services, remote access, Wi-Fi facility, etc.

Facilities available:

➢ The following facilities are available in the library:

➢ No of printers: 01

➢ Internet with good bandwidth

Additionally, the library gives access to the Internet and CD/DVD-based electronic resources.

Each library is equipped with a suitable number of terminals for searching/accessing electronic materials, web browsing, and other academic activities. Additionally, provision has been established for downloading/printing material from these resources. It has a good ICT infrastructure with sufficient capacity to enable rapid and seamless Internet connection. Additionally, it is a member of DELNET. The University has taken the following initiatives:

1. It has complimentary wireless Internet access, as well as download and print capabilities.

2. Facilities for reprographic reproduction.

3. Organizing book fairs and displaying new books.

4. An effective approach for collecting user feedback in order to improve library services.

5. Recommendation system for book purchases made through Departments.
